

# Friendly Life Home Health & Mobility

## Local experts in Home Health

The Friendly Society Pharmacy has become synonymous with home health aides, stocking the largest range in Bundaberg to make sure seniors can rest comfortably in their homes for as long as possible.

**From expert advice to everyday aids and mobility scooters, The Friendlies has everything to keep you moving safely and independently in your home or out and about.**

Head pharmacist Andrew Monk said The Friendlies range was continuing to grow, as more customers were wanting to stay in their homes for as long as possible.

“For a lot of people that only requires a few modifications or additional aids,” Mr Monk said. “It gives customers their independence and their family peace of mind.”

For expert and tailored advice about your individual circumstances, visit our display suite opposite the main reception desk at the Friendly Society Private Hospital or stop by our Barolin Street store, and enjoy a consultation with one of our Home Health experts.

“This gives us the opportunity to talk through all the needs of a customer, or their family, and talk them through all the possibilities,” Mr Monk said.

The Home Health range at the Friendly Society Pharmacy is extensive and includes vaporisers and nebulisers, tens machines, blood pressure and glucose monitors, shower chairs, high and low back chairs, lift chairs, over toilet aids, self-help poles, over bed tables and incontinence products.

“We also have a large range of mobility aids such as walkers, scooters, forearm rollators,

frames, crutches and wheelchairs,” Mr Monk said.

“We can also assist eligible DVA veterans with their mobility and CPAP needs through the Department of Veterans’ Affairs Rehabilitation Appliance Program,” he said.

“DVA Health Cards, gold and white, are accepted as payment upon a GP referral.”

Mr Monk said with a sale on home health items now until the end of June, it was the perfect time to buy.

**“There are thousands of dollars to be had in savings for the next month, so let our friendly home-health experts assist you to stay safe and happy in your home.”**

## Keeping you healthy this flu season, and beyond

Friendly Society Pharmacy now has three immunisation trained pharmacists who can give vaccinations to guard against a number of illnesses.

- ✓ Currently running flu clinics to vaccinate against this season's flu
- ✓ Vaccination for whooping cough, ideal for grandparents and family members of a new baby
- ✓ Vaccination for measles, mumps and rubella
- ✓ No prescription required
- ✓ No bookings or appointments necessary
