

# Repair & Defend

ON SALE FROM AUG 3 TO SEP 2

**Catalogue Sale On Now!**

Get yourself back to optimum wellness with our range of products that may help your body repair from the onslaughts of winter, boost your own defences again and help to fight inflammation.

Did you know inflammation simply refers to the natural process of the body's immune system responding to something – germs, physical injuries or something within the body?

While it is a natural process, you may be able to help relieve some of the symptoms it causes. This catalogue is full of products that our staff can give your information on and recommendations about.

Just ask us. We are friendly by nature and friendly by name.

Do your legs feel heavy, tired or achy after long periods of standing or sitting? Compression stockings and socks can help to relieve these symptoms. Our team are experts in the Jobst range and can help find the product right for you.

# Hello, I'm Maree.

I'm the cosmetics co-ordinator at Friendly Society Pharmacy.

The dry winter weather can have a big impact on your skin, causing inflammation and dryness which in turn can accelerate fine lines, wrinkles and enlarged pores, as well as causing puffiness, sagging, blotchiness or reddening of the skin.

The good news is that while diet, chronic stress and exposure to the environment (like air pollution, sun and second-hand smoke) can negatively affect your skin, there are a number of products you can use that can help to repair your skin and defend it from these elements.

Some things that will help your skin are targeted skincare support for redness, lines and pores; the right supplements that combat inflammatory damage as well as eating a good diet and staying physically active.

The cosmetics team will be able to assess your skin and give specific advice to help you feel your best.

Help fight redness ✓ fine lines ✓ wrinkles ✓ puffiness ✓
